Single Family	4/3	2,998 sq ft	7,927	1993	5/9/2025	\$579,900	\$193

This beautiful 2,998 SQFT home is situated on a .182-acre lot, offering a seamless blend of elegance and functionality. Built in 1993, it features high ceilings, expansive living areas, and a thoughtfully designed open floor plan ideal for both family living and entertainment. There's plenty of foliage in the front yard and a mature peach tree in the backyard. Upon entering, you're welcomed by a grand chandelier and a staircase with sophisticated finishes throughout. The spacious living area, complete with two wood-burning fireplaces, sets a warm tone, ornamented with intricate light features that can be adjusted between florescent and candescent. In addition, the utility room features a separate shower area perfect for pets. Speaking of which, the backyard door has a pet flap, so, if your bringing along a dog, you won't have to open and close the door every time they need to use the bathroom. There's also a 60 SQFT storage area below the staircase that could be used as a tornado shelter. In addition, every bedroom features a collapsible fan: at a press of a button, the fan tucks its wings behind the center light bulb, completely disappearing from view. There're two entrances to the 364 SQFT balcony, one from the upstairs gaming room and another via the backyard's outdoor staircase. In the backyard you'll find a firepit, a spacious patio, a peach tree, and a 99 SQFT shed with shelves and hangers for tools and farming equipment (the previous owner left a shovel and additional tools).

Hard to find large one story in Marshall Ridge. Honestly the pictures don't do it justice. The front porch welcomes you as you walk up to the front door and the moment you walk in the rich, warm, and beautiful site finished hardwood floors pull you in. The wide open entryway stretches past the private office and the dining room straight into the warm and cozy main living area. Be sure and look at the floorplan included in the pictures, this one is well thought out. Split bedrooms, office at the front of the house with a large walk-in closet for additional storage options, and the dining room could be used as a second office or a playroom, the second living area overlooking the beautiful backyard could make a great workout space or media room and with NO rear neighbors! So many upgrades when this one was built, come take a look. Zoned to Keller High School, easy walk to Ridgeview elementary, shopping and dining close by.

## About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

## About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

## Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
